

NEW!

Miller AirCore™ Harness

with Aluminum Hardware

- **Corrosion-Resistant**
- **Lightweight**

The new Miller AirCore™ Harness is now available with lightweight, corrosion-resistant aluminum hardware. This new line of AirCore harnesses with aluminum components provides the ultimate in performance and comfort.

Features/Benefits:

Lightweight

- Aluminum materials and components selected to reduce fatigue for all-day endurance and increased productivity.
 - 16% lighter in weight than competitive harnesses with aluminum hardware
 - 20% lighter than harnesses with steel hardware

Extended Service Life

- Corrosion-resistant aluminum hardware
 - lasts longer, reducing replacement costs

Research has found that a comfortable harness is more likely to be worn properly, increasing compliance, safety, and productivity.

COMFORT • EASY ADJUSTABILITY • STYLISH DESIGN

In addition, ALL Miller AirCore Harnesses are the most unique and innovative full-body harness available and are designed for;

COMFORT – breathable, open-core padding technology provides optimal air flow, while reducing heat and moisture entrapment, keeping a worker drier and cooler. **Up to 16% less surface area than other padding used on the market.**

AirCore harnesses are designed with patented Miller DuraFlex® stretchable webbing that provides greater flexibility and increased comfort.

Optimal Air Circulation

Maximum Heat Ventilation

EASY ADJUSTABILITY – unique cam buckles on the shoulder straps make vertical webbing adjustment the easiest of any harness on the market. Quick-connect chest buckles for easy donning.

STYLE – new webbing design creates an original and vibrant style and color for easy identification and greater visibility.

Miller AirCore™ Harnesses with Aluminum Hardware

Model Number	Size	Back D-Rings	Side D-Rings	Chest Strap	Leg Strap	Lumbar Pad	Removable Belt	*Weight
