

Multiconductor-600 Volt, Overall Aluminum Shield, Polyethylene Insulation

Product Construction

Conductor:

- Stranded tinned copper

Insulation:

- Polyethylene Insulated, twisted pair

Shield:

- 100% aluminum foil/polyester with stranded tinned copper drain wire

Jacket:

- Gray PVC

Applications

- Paired cables allow balanced signal transmission which result in lower crosstalk through common mode rejection.
- Due to the improved noise immunity of twisted pairs, they generally permit higher data speeds than multi-conductor cables

Standards

- CEC CM CL12
- CEC CM
- NEC type CM
- 300 Volt rated

COLOR CODE CHART	
Cond. #	Color
1	Black
2	Clear

Part #	AWG	Conductors	Pairs	Stranding	Insulation Thickness	Jacket Thickness	Nom O.D.	Lbs./M'
