- Add The Caddy to Beverage on the Move® for complete beverage service (*see reverse*)

Patent: www.lbpmfg.com/patents/

Build your hot beverage program by maximizing your incremental sales. Beverage on the Move® is a simple, one-handed solution for carrying 8 cups of coffee.

Beverage on the Move® automatically inflates as the box is converted from flat to a fully formed container. Coffee is then free to flow into the container, saving time and money while providing a cleaner solution for consumers. With flat storage, this one piece product stores easily.

As box is opened, the inner bag automatically inflates with our Pop, Fill & Go® technology.

Available in 3 gallon catering option in both kraft (ITEM #7150) and white (ITEM #7152).

Pair with The Caddy™ (ITEM #7139) for easy carrying of cups and condiments. Compatible with ITEM #7174 & 7175.

See reverse side for product specifications.
